SERIES FIREPLACES

*Available in  
36", 42", 48", and  
See-Thru styles*

Simply the *Finest Firebox* available!

**Real Masonry**  
**Real Lightweight**  
**Real Affordable**

*Rediscover the timeless beauty that will  
only come from a real masonry fireplace.*

*Discover the Sonoran™ Fireplace*

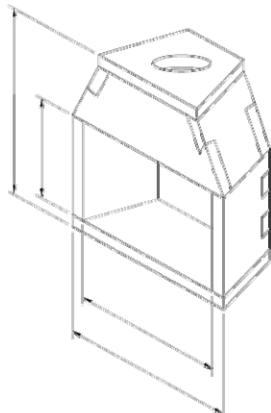

The Sonoran™ real masonry zero clearance firebox is designed using the latest technologies combined with traditional brick laying techniques to produce the finest and safest fireplace available today. Its sleek design makes it amazingly lightweight yet maintains the classic look of masonry. Styled to please the truly discriminating home owner this huge full view fireplace will add warmth to any room.

The optional arched front may be added to any of the Sonoran™ fireboxes. The clean front surface allows you to create the desired look to complement any decor. Our unique “integrated air tube” allows for outside air to be delivered directly into the fire for greater efficiency.
